

APR 02 2007

**REMARKS/ARGUMENTS**

The USPTO office action of 7/25/2005 was a notice of abandonment for not filing a notice of foreign filing within 45 days of such filing as required by 35 USC 122.

Applicants submitted a nonpublication request and certification under 35 USC 122(b)(2)(B)(i) with the above referenced application. Applicants herein RESCIND their previous nonpublication request. Our response at that time was apparently incomplete when received by the PTO and the subsequent Decision of Petition of March 13, 2006 was not properly addressed by this office for the unusual reasons stated subsequently herein.

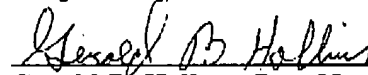

Applicants herein formally notify the USPTO of a related application filing in a foreign country. This notice is provided as required by 35 USC 122(b)(2)(B)(iii) to redress abandonment of the U.S. filed case referenced above.

Applicants understand that foreign named inventors of the application and their foreign employer did in fact accomplish filing of Patent Cooperation Treaty, Russian and Ukrainian applications corresponding to the instant U.S. application shortly prior to the one year convention date from the filing of the U.S. application without providing timely formal notification to us. Applicants understand the language of 35 U.S.C. 122(b)(B)iii to dictate that the instant U.S. application therefore became abandoned upon expiration of 45 days after the first of these applications was filed because notification of this filing to the U.S. Patent and Trademark Office was not filed during the 45 day period for notification.

A petition with fee regarding revival of the thus unintentionally abandoned application accompanies the present amendment. A statement seeking to establish unintentional delay in notification of these foreign filings accompanies this petition.

Revival of the present application, allowance of all claims and passage of the application to issuance as amended on October 21, 2003 is respectfully solicited.

Respectfully submitted,

Gerald B. Hollins, Reg. No. 25,452  
Attorney for Applicant(s)
